

NeuroNET Brown Bag Seminar Series Spring 2017

On Thursday afternoons in Room 411 Austin Peay Building

For more information, contact Joanna Cooper , jcoope44@vols.utk.edu

Date	Presenter/Title
Feb 2 5:00 pm	Joanna M. Cooper PI: Rebecca Prosser LRP-1 modulates glutamate signaling in the mammalian circadian clock
Feb 9 *3:30 pm	Rebecca F. Wiener PI: Daniela Corbetta Developmental changes in goal-directed visual attention to a scene prior to reaching
Feb 23 5:00 pm	Andrew Stafford PI: Jim Hall The role of nitric oxide in the bullfrog central auditory pathway
March 2 5:00 pm	Amber Moody PI: Bhavya Sharma SERS Detection of Neurotransmitters for Development of Bioanalytical Sensors
March 9 *2:15 pm	Sabrina L. Thurman PI: Daniela Corbetta Mother-Infant Spatial Exploration, Interactions, and Posture: A Longitudinal Study
April 6 5:00 pm	Brooke N. Dulka PI: Matthew Cooper Dominance relationships in Syrian hamsters modulate neuroendocrine responses to stress
April 13 5:00 pm	Kathryn E. Abrahamsson PI: Rebecca Prosser Acute effects of matrix metalloproteinase inhibition on the mammalian circadian clock
